

NEW SPEED DEVICE TO BE USED BY PATROL

Recently the Department of Public Safety requested more than one hundred vascar speed computer devices to be used by the highway patrol throughout the State. These units are now being installed and made ready for use in mass form, according to Colonel Floyd H. Mann, Director, Department of Public Safety. This device, called vascar, will be used by the Alabama Highway Patrol to increase patrol efficiency and enable improved service to state highway users and at the same time help to keep highway speeders at reasonable levels, according to Colonel Mann.

Colonel Mann lists some of the advantages of vascar, a computer device for clocking speeders, over radar.

Radar, which still has its place in enforcement, must be operated from a parked position; vascar can be used from a moving patrol car.

The radar detection beam is highly directional; vascar is effective over a broad field of observation.

Radar detects peak speed; vascar records average speed over a set distance. This characteristic seems to work in favor of the speeder, because the speed with which he is charged in court will be lower than the peak speed he may have attained at any given moment. Also, this will tend to eliminate such arguments as, "They clocked me just as I was passing another car."

Vascar, unlike radar, is not affected by the presence of other traffic; a speeding car can readily be picked out of a crowd of vehicles.

"Although vascar is a speed detection device," comments Colonel Mann, "it will actually permit our troopers to spend more time on other important duties — traffic surveillance, motorist assists, and the detection of other hazards — moving violations — because vascar operations fit so well into

general patrol activities." Vascar, which stands for "visual average speed computer and recorder," has fantastic capabilities. It permits a patrolman to calculate the driver's speed while his patrol car is either parked or moving. The vehicle being clocked may be oncoming, following, or even crossing the path of the observing trooper.

Rapid electronic computations are based on the factor of time and distance. The distance over which the speeding vehicle is being timed may be marked by such objects as a tree,

a road sign, a guard-rail, a crossroad, a painted line, a shadow, or even a spot on the pavement or a rock on the shoulder. The observing troopers spots a car which appears to be moving in excess of legal limits, flips on a switch when it enters and leaves a designated area, and the computer does the rest. Speeds are calculated to the nearest tenth of a mile per hour.

Judges in various parts of the state will be given demonstrations of the device in action, so they are aware of its capabilities and its accuracy. State troopers will be

Kinston Church To Sponsor Kindergarten

An organizational meeting for a kindergarten will be held for parents Tuesday July 15, at 7:30 p.m. in the educational building of The Kinston First Baptist Church. Plans have been made for the kindergarten ministry for the 1969-70 school year. It will be a church sponsored kindergarten where the intellectual, social, and physical objectives of public education are integrated with the spiritual objectives of Christian education. It will be open to 5 and 4 year olds with children who are 5 on, or before December 31 preferred. Enrollment will be limited to 25. The pre-school five year olds will use work books in preparation for entering the first grade in the fall. A registration fee of \$5 will be charged and a monthly fee of \$15 payable on the first of each month in advance. All interested parents should attend the meeting or contact the church office for an application blank.

NUMBER 57

Draft Hike Disclosed By Caldwell

A slight Alabama draft hike was disclosed when Director Hugh J. Caldwell, Jr., said that Alabama's Selective Service induction call for August will be 645 registrants. In July, it was 516.

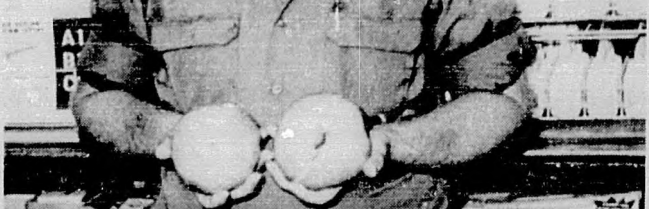

Caldwell said that to get the 645 quota, it would be necessary to call some 955 young Alabamians to the Armed Forces Examining and Entrance Station in Montgomery. In July, 722 registrants were called, to supply the 516.

The August National call is for 29,500 inductees, compared to 22,300 in July. All of the August inductees will go to the army. The overall is necessary because many inductees will fall the entrance examination and many others will have enlisted in some branch of service prior to induction.

Head Start Program Is Progressing

The Head Start summer program at Elba High School is progressing very nicely. They have enrolled 120 children and attendance has been fair, considering that all enrollees are pre-school children.

Head Start is for children who will be attending kindergarten or elementary school this fall. At least 90% of the children enrolled must be from low income families. The Elba Resource Office made a survey of Coffee County to determine what children would be eligible to attend Head Start. They found 175 whites and 225 negroes eligible. Out of this number, they had to find out how many parents were interested in sending their child to Head Start. They selected 105 children who were eligible and located them on a map for the two county bus drivers to pick up and bring to Elba. They also visit the homes of children who are absent for several days and most of the time get them to return to school.

BIG TOMATOES... Mr. J. L. Harper, of Rt. 1, New Brockton displayed some mighty big tomatoes last week. They were the products of his garden and weighed over one pound each. They are the Burpee Triple-L climbing tomato. Harper credits his success to fumigated land, the right kind of plants and plenty of water on the garden.

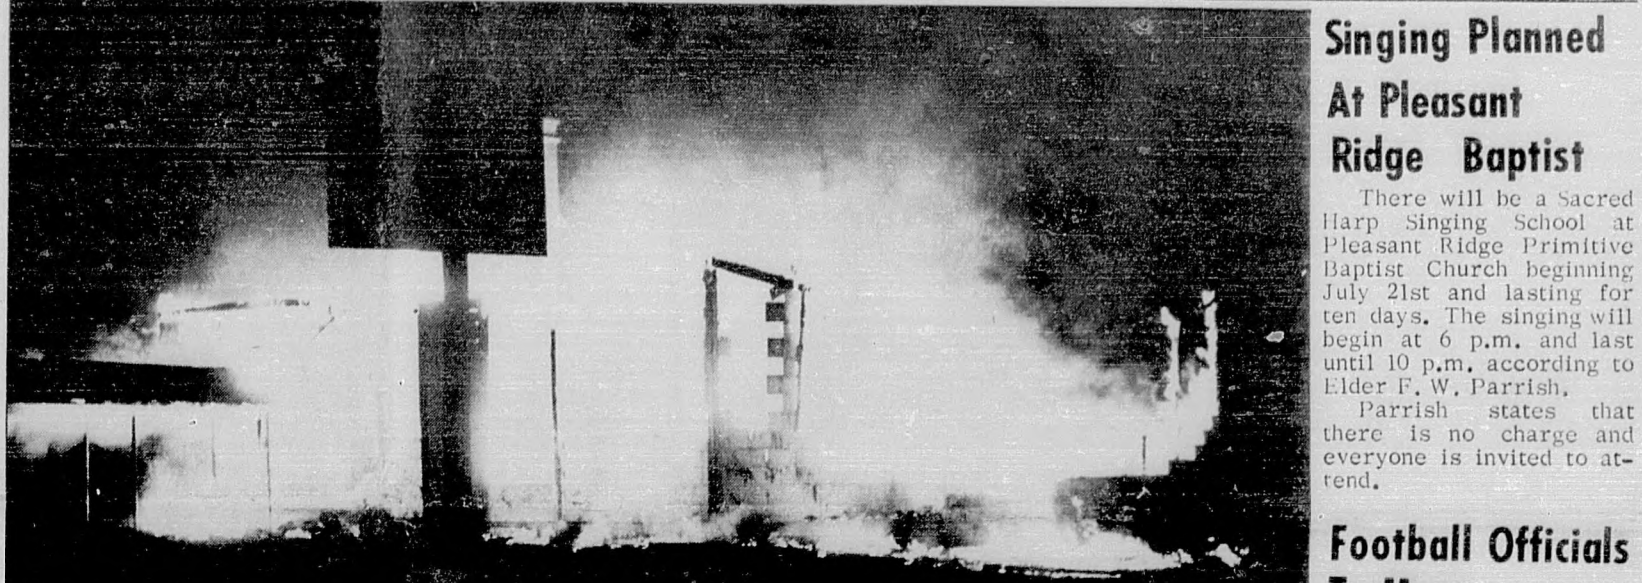

NEW DENTIST IN TOWN... Dr. and Mrs. Jerry Paulk are pictured in their home on North Claxton in Elba. Dr. Paulk opened his office to the public on Monday of this week in the former offices of Dr. Ringsdorf who has retired from active work.

Pictured with Dr. Paulk are his wife, Cecelia, and daughters Jerilyn, age 4 1/2 and Julie, who is nine months old.

DIXIE YOUTH AT STARS from Elba will take part in the sub-district play-offs which begin in Dothan next Monday night. The Elba team will play at 8 p.m. Their first opponent will be New Brockton. This is a double elimination play-off, therefore both teams will again Tuesday night, one at 6:30 and the other at 8. The winner of the Dothan play-off will go to the district play-off

the following week in Ozark. Members of the local team are from left: Kenneth Pope, Bruce Donaldson, Mark Jacobs, Donnie Layton, Mark Parker, Johnny Miller, Johnny Moody, David Smith, Buddy King, Freddy Hanchey, Greg Brunson, Donnie Skinner, Laddie Kelley, Gary Murley, Joe Morrow and Mickey Marler. Coaches for the team are Lamar Daniels, left rear and Edin Wilkerson, right rear.

LUNCHROOM BURNS... Fire destroyed the lunch room at Goodman School on Sunday night of this week. The fire was discovered shortly after 8 p.m. but the frame structure was to near gone for a unit from Elba and a unit from the Enterprise fire departments to save the building. They could only insure that the fire did not spread to the main building or the gym. School principal Harvey Locklar, who was at the scene with county superintendent G.E. Peacock, stated that it was apparently caused by lightning. He was in the building at 6 p.m. that night and everything was in good condition. He stated that he even checked all the appliances in the lunchroom. After the excitement was over, Locklar was all praises for the men of the Elba Enterprise fire departments who controlled the blaze.

Covington Co-op Sets Annual Meet August 17

The 1969 annual membership meeting of Covington Electric Cooperative will be held Thursday night, Aug. 7, at the Municipal Stadium in Andalusia. Co-op officials have announced.

Registration of members will be at 5:30 p.m. with the entertainment program starting at 6:30 and the business session at 7:15 p.m.

Featured speaker for the meeting will be David A. Hamill, Administrator of the Rural Electrification Administration (REA).

During the business session, Covington Electric members will elect reports on operations of the Cooperative, and elect two members to three-year terms on the Board of Trustees.

Some 30 electrical appliances, including a 23" color television set and an electric range, will be awarded as attendance prizes. In addition, each Co-op member registering will receive a free gift.

Entertainment at the meeting will be provided by the "Singing Spear Family," of Nashville, Tenn. Concession stands will be open for the convenience of those attending the meeting.

QUARTERBACK CLUB TO MEET

The Elba Quarterbacking to President James Club will hold a special Bush. The meeting will be called meeting of the entire club at 7:30 and all members membership next Monday night and potential members are urged to attend.

ALL THAT IS LEFT of a late model Pontiac that was involved in a head-on collision 2 1/2 miles west of New Brockton on the Elba-New Brockton highway. The accident occurred last Thursday morning shortly after 8 o'clock. The accident occurred when the car, driven by Joe Driggers, met head-on with a soft drink truck. In the truck was Stephens was Charles W. Owens of Rt. 2, Laverne, Ala. Driggers suffered multiple fractures of the right leg and many cuts and bruises. He was taken to Elba General Hospital by the Elba Rescue Squad and was later transferred to a Dothan Hospital. It was reported later that his leg would be in traction for six to eight weeks.

Owens was also taken to the Elba hospital by the rescue squad and was later transferred to a Montgomery hospital for treatment of a crushed left ankle and fractured ribs.

The accident was investigated by Trooper Don Morris, who could not give any cause of the accident except to say that the car driven by Driggers apparently crossed over into the path of the oncoming truck. The road is straight at this point and witnesses could not say exactly how it happened either.

Driggers was employed by Easy Pay Tire Store of Elba.

EXAMINATIONS: A complete scientific hearing evaluation examination with the latest electronic equipment offered at no cost or obligation of above clinic.

REPAIRS TO ALL MAKES HEARING AIDS. Accessories including cords, tubing, ear molds, ear tips, tubing, receivers. Batteries for all makes hearing instruments.

NOTE: It is usually to attend clinic due to job, health, or transportation call in write and arrangements will be made to service you.

ALABAMA HEARING AID DISPENSARIES
P. O. Box 1267, Birmingham, Alabama 35201

The Alabama Highway Patrol investigated 199 rural traffic accidents with 100 injuries and 8 fatalities, a decrease of 15 fatalities. Violations causing these weekend accidents were uncontrolled speed, following too close, improper brakes and failure to give proper signal. Death plays some of it's cruellest tricks during the early hours of dusk. Colonel Mann reminds that even a person with normal vision finds it difficult to see approaching cars with headlights turned off. Driving with only parking lights can make you seem farther away to other drivers. Be alert to this twilight trap. Use full headlights at dusk.

Friendship Baptist To Dedicate Building

Dedication services will be held Sunday morning at the Friendship (Bullock) Baptist Church for their new building. The auditorium has been completely renovated and new educational space built. The entire building has been brick veneered with a central air conditioning and heating system installed. Dinner will be served on the grounds after the morning worship hour.

The revival services will begin the same day with John K. Smith pastor of Hillcrest Baptist Church of Enterprise, doing the preaching. Services will be each day throughout the week at 7:30 p.m. Earl Curenton is the pastor. Vacation Bible School will be held also each day from 8:00 to 12:00.

Death Claims W. W. Meek On Saturday

William Wilson Meek, Jr., 54, died Saturday. Funeral services were at 2 p.m. Monday from Hayes Funeral Home Chapel with the Rev. Ralph Averis officiating. Burial was in the New Home Cemetery of Basin Community with Hayes Funeral Home of Elba directing.

Survivors include his widow, Mrs. Kate Meek; Elba; mother, Mrs. Mary Kain Meek; Elba, one son, Billy W. Meek; Elba; one daughter, Mrs. Jacqueline Lanier, Pensacola, Florida; two sisters, Mrs. Woodrow Pierce, Kinston, and Mrs. Charlie J. Jones, Opp.

Saving Bond Interest May Reach 5%

Sam F. Sawyer, Coffee County, County Chairman for U. S. Savings Bonds, was queried about the Treasury request to Congress to remove the interest rate ceiling on Savings Bonds and other Government securities.

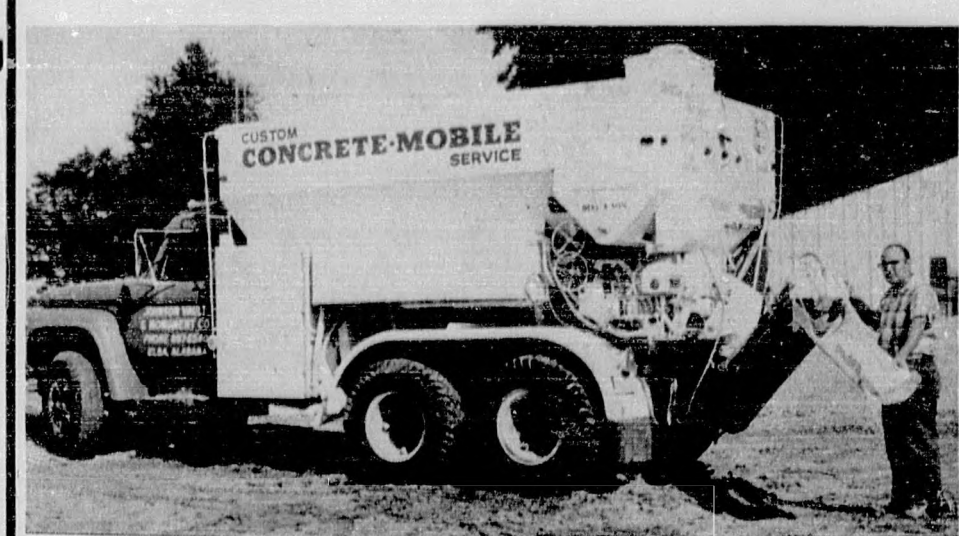

According to Sawyer, if the legislative request is approved, the interest rate on Series E and H Savings Bonds will be raised from the current 4.25 percent to 5 percent, if held to maturity. The increase would be retroactive to June 1, 1969. All outstanding E and H Bonds would also benefit from the new 5 percent rate, beginning with the first semiannual interest period which starts on or after June 1.

Sawyer said that the Treasury's proposal should give new impetus to the Savings Bonus Program throughout our area.

STRENGTH FOR THESE DAYS
I have set before you an open door.—(Rev. 3:8).

A door can be either a way in or a way out. We need to discover what kind of a door we are looking for. The doors of failure, frustration and insecurity, we need to close behind us, not in despair, but in the faith that already new and better ways are opening to us. Always the door to our good stands open, for God has put it there.

Joyce Wilson, Notary Public

BRAINSTORMS

With Ferrin Cox

At this time when the Apollo spaceship is on its way to the moon, my attention was called to the actions of the lady who filed the lawsuit that resulted in the U.S. Supreme Court handing down its ruling on prayer in public schools. She was highly critical of the astronauts reading from the Bible as his spaceship circled the moon on Christmas Eve. She now has a petition with more than 27,000 signatures condemning them for this action. A movement is underway to get even more people to contact NASA and voice their approval of this "Christian Witness." The Elba Church of Christ is collecting signatures for this, if local people wish to include their letter with the other local signatures. Minister Denar Elam has stated that he will gladly include them.

Mrs. and Mrs. McRae went to New Orleans several days ago and have not returned. We, at the Clipper office, are doing our best to get out an issue of the paper without Mr. Mack, just to show him that it can be done.

I was given a demonstration of the new VASCAR

IT'S UP TO YOU

By Howard E. Kershner, M.D.

The Crime Blitz in Washington

RECENTLY a London newspaper published the following comment: "It seems almost as if crime in Washington has become a sport. In a curiously way, many Washingtonians have become accustomed to living with crime almost in the way that Londoners learn to live with the World War II blitz."

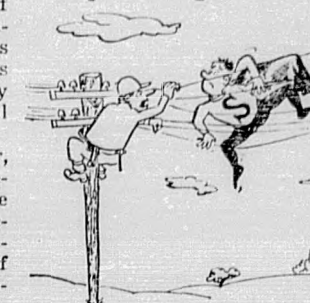

According to Senator Strom Thurmond, a major Washington newspaper carries a daily "crime clock" listing the armed robberies for the preceding 24-hour period, and the time at which they occurred. On a typical day recently, the "crime clock" listed 16 robberies ranging from \$15 to \$882. But whatever the amount of money lost, the victims each faced the danger of death or injury.

The vice principal of one of the largest high schools in Washington was slain in the corridors of his school during school hours in an attempt to foil a robbery being committed by youthful thugs.

For the month of December, 1968, the Washington police reported 629 holdups in all, more than double the number for December, 1967. Compared to December, 1965, the number of holdups in Washington has increased 402 percent.

"The situation with regard to bank robberies is even more startling," says Senator Thurmond. In 1968, there were 106

Press Objects To House Action

The Alabama Press Association has objected to the method used by a House committee in approving a series of bills which allow building and zoning codes without publishing them in full in a newspaper.

The House Local Government Committee, headed by Representative Gene Garrett of Ural, reported the bills out June 24 in a secret session.

On June 4, Shelton said, in a letter from its legislative committee chairman, Barrett Shelton, Jr., of the Decatur Daily, said that a secret session was not the proper way to go about dealing with such measures.

"In effect," Shelton said, "what the House Committee has done is to approve a set of bills which would make it much harder for the people to find out what their city hall is doing and have done it in a manner that attempts to prevent the people of their counties from knowing what they did."

Pushing for the legislation has been the Alabama League of Municipalities. The League contends that the costs of printing sometimes lengthy, new building and zoning codes or ordinances are prohibitive.

The House Government Committee, on the other hand, failed to vote and nothing further was heard until after its secret session June 24.

The Press Association told both committees that the public's right to know about the regulations and the danger that some ordinances will not be made public outweigh the cost of advertising the proposals in full as required under present law.

No action has yet been taken by either house as a whole.

Shelton said that if the measures are allowed to pass and become law they will simply make it harder for the people, the average citizen, to find out what is going on in local government.

At the request of APA, public hearings were held by committees in both houses of the Legislature.

At the conclusion of the Senate hearing, he said, the Municipalities Committee, in the open and by recorded vote, approved the bills. They were put on the Senate calendar and are still there.

Food for Thought

By Mary Lee

Homemakers are getting to be a pretty spicy group of gals these days. At least, they're sending to new highs the sales of such spices as black and white pepper, cinnamon, oregano, onion and sage. According to the American Spice Trade Association, we imported some 3,116,000 pounds of oregano seed alone last year.

It's interesting to note that while thousands of tons of stalk celery is grown in this country, celery seed for the spice shelf must be imported from India, France and Guinea.

Actually, celery seed for seasoning comes from the fruit of wild celery or smallage which has been harvested for many centuries. At one time it was used for medicinal purposes. And then, as now, the seeds had an appetizing aroma but the rest of the plant was unpleasantly bitter, or "ungrateful" as they called it long ago.

But even the sweeter plant from which our celery flakes and dried celery come took centuries of taming to develop into the delicious vegetable, the flavor flip of the tiny brown seed has always been used by good cooks. It is an important ingredient in pickling spices, an excellent addition to chowders and fish soups, oyster dressings, soups, and salads of different kinds.

"A great Combine!" Pat Raley is high on his Lilliston 1500:

H. E. (Pat) Raley, Kinsey, Alabama

"I like its wide header, its clean picking characteristics and its speed. Its separation is second to none, too. The Lilliston 1500 is just a fine Peanut Combine, that's all there is to it."

Let us show you why Pat Raley and thousands of other top producers go down the line with a Lilliston. It's the finest machine ever made for harvesting peanuts.

The other member of the world-famous peanut harvesting team

LILLISTON'S 2700 DIGGER-SHAKER-WINDROWER

out-runs, out-windrows, outlasts them all. It's the slickest, smoothest-running shaker in the field.

LEGAL NOTICES

LEGAL NOTICE TO WHOM IT MAY CONCERN:

This is to certify that James L. Sawyer as Tax Collector of Coffee County, Alabama, did, under oath, under the provisions of Section 209, Title 51 of the Code of Alabama of 1940, report the following, according to the official records of this office, as a "list of insolventcies" to the State Department of Revenue and Court of County Commissioners during the June term 1969 and that the same were approved and determined by the Court as such.

M. E. Anderson \$15.75
M. D. Ogleby \$14.60
D. P. O'Brien \$20.25
R. Bradley \$23.10
R. Bradley \$23.10
J. K. Ramsey \$36.85
J. L. Brantley \$50.25
M. A. Bobineau \$12.73
J. E. Burch \$36.85
J. P. Bradley \$50.25
R. P. Brown \$6.30
P. T. Chancey \$29.48
J. J. Covin \$37.86

Given under my hand and seal this 7th day of July, 1969

James L. Sawyer
Tax Collector
Coffee County
7/10/2tpc.

STATE OF ALABAMA
County of Coffee

NOTICE is hereby given that a bill substantially as follows will be introduced in the Legislature of Alabama and application for its passage and enactment will be made, to wit:

A BILL TO BE ENTITLED AN ACT

Relating to Coffee County to provide further for the payment of expense allowances to members of the governing body of the county to authorize such members to use county-owned motor vehicles when traveling on county business, and to give this Act retroactive effect.

BE IT ENACTED BY THE LEGISLATURE OF ALABAMA:

Section 1. Members of Coffee County shall be entitled to be reimbursed for the actual amount of any reasonable expenses incurred when traveling in privately owned motor vehicles outside the county in furtherance of county business.

Section 2. Members of such governing body are hereby authorized to use county-owned vehicles when traveling within or outside the county in furtherance of county business.

Washington Report

by GEORGE ANDREWS
Member of Congress
Third District of Ala.

Increase taxes "temporarily" and "study" tax reform -- like a broken record, these two myths go on and on, I have heard them year after year during my 26 years in Congress. If I remember correctly, back in 1943 or 1944, every time I hear about a "temporary tax," I am reminded of a cartoon that I saw several years ago of a Congressman making a speech in which he said, "My friends, you can tell your children, and their unborn children, that this is a temporary tax."

I opposed the surtax at its inception, and I opposed its extension. It was almost unbelievable that a tax increase should have been suggested in the first place, considering the existing level of taxation on middle-income Americans and the poor effort made toward a reduction in Government spending by the Administration.

The surtax has not slowed inflation, as some predicted. Quite the opposite has happened. The cost of living increased 4.2 percent during 1968, the highest since the Korean War.

Reeves Serving On Unit Of Task Force 140
Chief Machinist Mate E. Reeves, USN, son of Mr. and Mrs. Ole C. Reeves of Route 1, Kinston, and husband of the former Miss Judith N. Brewer of Route 1, Samson, is serving aboard the destroyer USS New, a unit of Task Force 140 supporting the fight at Apollo II.

New will be stationed approximately 400 nautical miles east of Cape Kennedy, on the first revolution ground track of the spacecraft to recover the astronauts should there be a launch vehicle malfunction prior to orbital insertion.

The destroyer will remain on station until the spacecraft has achieved successful translunar insertion before being released from recovery duties and order to return to port.

New is assigned to Cruiser - Destroyer Flotilla Four, U. S. Atlantic Fleet, and is homeported at Norfolk, Va.

ONE PROGRAM THAT HAS WORKED
We Americans like to celebrate anniversaries, and few historic events get by without a ceremony, speech, or some other form of remembrance.

The silver anniversary of the signing of the G.I. Bill of Rights, (Public Law 346) probably received little notice generally on June 27, but it is certainly not forgotten by some 2,200,000 Alabama veterans who have benefited from it.

It might well be the greatest single piece of legislation ever passed by Congress, and I am especially proud that as a member of the World War Veterans' Legislative Committee, (later to become the Veterans Affairs Committee) during the 78th Congress, I helped draft the bill. At that time, the Committee was chaired by the late Congressman John Rankin of Mississippi.

Giving veterans the opportunity to get a college or trade school education, find a job, and buy a home, the program has had the effect of upgrading the entire economy of the nation.

With increased educational opportunities have come increased skills and productivity, coupled with the demand for increased wages, and a resulting increase in return of taxes to the Government. Needs in the vital fields of medicine and education are being filled, with a new corps of veterans entering professional fields.

A building boom was inevitable with the availability of home loans, and home-building continued today, thanks to help extended to veterans of World War II, the Korean War, and the Vietnam War.

By the Veterans Administration, which administers the program. Since the 1944 bill, and those covering the succeeding two wars, over 7,000,000 home loans have been guaranteed by Veterans Administration.

This is a program that has worked, unlike many brought forth in this decade.

Although Apollo II is scheduled to land in the Pacific, southwest of Hawaii, Task Force 140 must maintain launch abort recovery capabilities should there be a launch vehicle malfunction prior to orbital insertion. Staff 800 will maintain vigilance until after spacecraft has achieved translunar insertion again during the re-flight.

Task Force 140 has sighted in all the past Apollo flights.

Many women are getting men's wages these days -- but then, haven't they always?

Morrow On Staff Of Task Force 140
Journalist First Class Charles D. Morrow, USN, son of Mr. H. W. Morrow of Elba, is serving on the staff of Commander Task Force 140. He assisted in the planning and training for contingency recovery operations of Apollo II. He is working at the Recovery Control Center, Atlantic, at Norfolk, Va.

Although Apollo II is scheduled to land in the Pacific, southwest of Hawaii, Task Force 140 must maintain launch abort recovery capabilities should there be a launch vehicle malfunction prior to orbital insertion. Staff 800 will maintain vigilance until after spacecraft has achieved translunar insertion again during the re-flight.
